

Anterior Single Implants and Soft Tissue Managements for Aesthetics

10pm-11.30pm (JST), Tuesday, 21st July 2020

PROGRAM DESCRIPTION:

Anterior Single Implant is probably one of the most challenging aesthetic scenario in clinical implantology. Soft tissue management plays a key role in the aesthetic zone and more often than not, dentists are faced with multiple challenges and find it difficult to manage such cases. In this course, Dr Amato will discuss on clinical aspects and criteria as well as pitfalls to watch out for when working on such cases. At the same time he will also guide us on the steps to take to ensure success predictably. Dr Amato will also share with us clinical cases to further understand the concepts that will be discussed in this lecture.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Properly diagnose and assess level of difficulty in anterior single implant cases
- Describe the protocols for predictable aesthetic outcomes
- Select the appropriate surgical protocol for anterior implant sites
- Understand the criteria and steps for soft tissue management

Dr Francesco Amato, DDS, PhD

Dr. Francesco Amato received a PhD in Biopharmaceutical Microbiology and a Degree in Medicine from the University of Catania, Italy. He participated in the Continuing Education Program in Implant Dentistry, the Advanced Program for International Dentists in Implant Dentistry and the Advanced Program for International Dentists in Periodontics of the New York University College of Dentistry. He also did a Residency in the Oral Surgery Department at the University of Catania, Italy. He is currently a Visiting Clinical Professor for the Master of Periodontology Program at Universitat Internacional de Catalunya, Spain. He is also an International Lecturer in the Department of Periodontology at Columbia University as well as the Continuing Dental Education at New York University. Dr. Amato has numerous publications in the area of aesthetics and periodontology, and lectures extensively internationally. He is in private practice specializing in Oral Surgery, Periodontology, and Implantology in Catania, Italy.
